

PALMERS RELOCATIONS

November 10, 2014

Dear Peter ,

Firstly, it was a pleasure to meet you in Orlando. I was excited at the opportunity to meet a wide range of businesses and understand more about your thoughts on relocating goods to and from Australia.

The feedback was priceless.

It was exciting showing you the survey app in Orlando. I am happy to confirm the full version is well on its way with just a few modifications to go which will allow it to be set-up to suit your individual domestic and international business and needs. I truly believe everyone can benefit from this and your clients will be impressed by its functionality, I know the staff here at Palmers Relocations have enjoyed it.

All we ask in return is the opportunity to work with you in managing your inbound and outbound moves. With the growth already seen at Palmers including our expansion to a national network, we hope to continual grow and innovate within an already mature marketplace. I will be regularly updating you our service partners with news relating to international freight within Australia.

I have given you the link to fill out you information to get your FREE SURVEY APP [CLICK HERE](http://newsletter.palmersrelocations.com.au/app/) or copy this link <http://newsletter.palmersrelocations.com.au/app/> and we look forward to getting the app to you in the next few weeks.

Thanks again .

Kind regards

Pete
